

Greetings!

You are the greatest and best friend that a guy could wish or hope for in life. Here in the waiting, your laid back demeanor, witty charm,

stand-up character and basically all the aspects of your personality are manifold leak missed. I truly wish you nothing but

the best, my friend. Can't wait until our paths meet up again. Obviously, it'll be more epic than the entire Marvel Cinematic Universe in it's entirety. But,until that time... **PEACE!**
